ALL-PURPOSE CLEANER

BLUE STAR OCEAN

Item no. 121.942 10 l canister
Item no. 121.943 6 x 1 l bottle
Item no. 370.803 6 x 1-l-Twoneckbottle

- Quick-acting due to the special combination of active ingredients
- Ideal for the wet and moist cleaning of coated and uncoated coverings
- Compatible with commercially available surface disinfectants
- Safely removes rubber, ink and ball pen stains when used undiluted
- Preserves the absorptive capacity of the textile fibres of mops and wipes
- Very good separating behaviour in waste water
- No layer formation
- Pleasant fresh fragrance
- Suitable for all types of cleaning and for all types of water-resistant surfaces

AREAS OF APPLICATION:

Blue Star Ocean is an ultra-wetting cleaning agent. A highly active maintenance cleaner for strongly water repellent, elastic floor coverings. Its cleaning action leaves no residues and also no streaks. Optimises maintenance cleaning to a one or two step wiping, mopping or swabbing process. Specially developed for the cleaning of floor coverings that are coated with PU on the side to be loaded. Get rid of hard to remove discolorations through the use of undiluted product along with mechanical agitation, if required. Removes lime scale as well as oily and greasy soilings on all objects in the entire range of sanitary fittings. Blue Star Ocean complies with the cleaning recommendations of sanitary fittings manufacturers.

DIRECTIONS FOR USE AND USAGE QUANTITIES:

Manual: 20 ml in 8 l of water (0.25%) for normal discolorations. In the case of heavy discoloration, use larger quantities of product. Clean floors with a one or two step mopping process. In the case of sanitary areas, the product may be used in undiluted form. **Usage in automatic machines:** According to the specifications of the manufacturer of the machine or at a dilution level of up to 1%. In the case of heavy discolorations, pre-process the area. The efficiency of the cleaning can be improved sharply by the use of coordinated scrub pads.

Usage of the correct amount reduces cost and protects the environment. Do not mix with other cleaning agents. The product should only be used as intended and must be kept away from children. The Safety Data Sheet is available to professional users, on demand. Please see the associated product information for further details

TECHNICAL DATA:

Appearance: Clear, blue liquid
Odour: Pleasant and fresh
Viscosity: Low viscosity
Density: 1000 g/l
pH value in the concentrate: 9

COMPONENTS:

Less than 5%: a non-ionic surfactants
Contains: Preserving agents, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, fragrances
Gis code: GU 50
Shelf life: at least one year when in the original packaging
The surfactants contained in this preparation fulfil the requirements pertaining to biological degradability as specified in EG Directive no. 648/2004 regarding detergents.

IDENTIFICATION MARKINGS: Contains Methylchloroisothiazolinone, Methylisothiazolinone. Can cause allergic reactions.

TRANSPORT:

Not classified as hazardous according to the transport regulations (ADR).

EU Ecolabel : DE/020/284
